Summary

Hello, My name is Sani. I'm from Jordan and I speak English and Arabic. I have a Bachelor degree in Management Information System. Most recently, I owned a bakery and pastry shop. Previously, I was a manager and share-holder for an electrical and technological company in Jordan. I've also worked as an event and conference coordinator, and as a junior consultant and salesman for an Egyptian medical company in Jordan. I value being an inspirational leader, always helping those around me to show their best and to inspire them to exceed their limits. I am a team player with the ability to adapt and learn in new environments and with new people and colleagues. I am able to tactfully and patiently interact and communicate with people of different ages and cultures. In Yerevan, I have worked as a dispatcher, brokering for truckloads in the USA. In addition, I also volunteer with UNHCR and KASA-Sarva Humanitarian Foundation. This has allowed me the opportunity to speak in public forums, including the National Assembly and the UN House. I am seeking new opportunities that will allow me to use and increase my skills and experience while helping a company reach its goals.
